*Allowance*

1. Claims 2-4, 9-11, 16 and 17 are cancelled.
2. Claims 1, 5-8, 12-15, 18 and 19 are allowed.

*Examiner's Amendment*

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
4. Authorization for this examiner's amendment was given in a telephone interview with Clyde Christofferson (Reg. # 34,138) on 10 October 2006.
5. The application has been amended as follows:  
  
In the Specification: Page 7, line 15 has been amended.

...message belongs, 311 or 312. Module ~~306~~ 360 represents a question mark that may...

In the Claims: Claims 1 and 8 have been amended.

**Claim 1 (Currently Amended)** A messaging system comprising: an interactive system for the production and interchange of messages by users over a network; a time synchronizer for time stamping messages; an automated topic separator receiving user messages and separating messages according to different topics, wherein the automated topic separator includes a language-model topic classifier that estimates a topic of the user messages ~~and/or~~ or parts of the user messages based, at least in part, on their respective word content, and a final topic separator which separates messages or parts of messages based on a ~~spacing~~ difference between their respective estimated topics and the difference between their respective time stampings, such that messages ~~and~~ or parts of messages are separated into different topics when said ~~spacing~~ difference between their estimated topics exceeds a threshold, the threshold being based, at least in part, on the difference between their respective time stampings, and wherein the threshold, at least in part, is made smaller as said time difference increases; a user interface, coupled to said topic separator, for representing in a distinct way parts of messages that were separated by said topic separator, wherein said user interface displays at least one of said messages in windows according to topic, and messages in different colors according to topic, and wherein the user interface enables a subgroup of users to conduct a messaging session separate from other users, within a framework of an ongoing session or topic.

**Claim 8 (Currently Amended)**

Line 8 “a topic” has been replaced with – **the topic** –.

*Reasons for Allowance*

6. The following is an examiner's statement of reasons for allowance: Claims 1, 5-8, 12-15, 18 and 19 are allowable over the prior art of record.

The examiner has found that the prior art of record does not teach, suggest, or render obvious the specific combination of a system or a method of conducting a messaging session at a user's computer between two or more users over a network comprising the steps of: a final topic separator which separates messages or parts of messages based on a difference between their respective estimated topics and the difference between their respective time stampings, such that messages or parts of messages are separated into different topics when said difference between their estimated topics exceeds a threshold, the threshold being based, at least in part, on the difference between their respective time stampings, and wherein the threshold, at least in part, is made smaller as said time difference increases (major difference in the claims not found in the prior art) in order to provide a new means to monitor and detect new message topics between two or more users engaged in an on-line messaging communication with new topic messages presented in an orderly fashion whereby replies are coordinated and presented by topic and by user as set forth in the specification and recited in independent claims 1 and 8.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance OR Examiner's Amendment."
